Dear HR Manager,

I am writing to express my interest in the Full Stack Web Developer position at your company. My name is Haris Wahyudi and I am currently pursuing a Bachelor's Degree in Computer Science at Asia Cyber University (UNSiA). In order to focus on my career, I chose employe class and online classes.

I have some experience as a Website Developer and am proficient in Frontend technologies such as ReactJS, ExpressJS, and TailwindCSS, as well as Backend technologies such as NodeJS, ExpressJS, and Laravel. I am also familiar with mobile technologies like React Native and supporting technologies like AWS and Git.

I am very passionate about this position and am always eager to learn new technologies, as coding is one of my hobbies. I would be thrilled to have the opportunity to discuss my qualifications and how I can contribute to your company further during an online interview session.

I look forward to communicating with you at the online interview session to further discuss my qualifications and how I will be an asset to your company.

HARIS WAHYUDI

PROFILE

My name is Haris Wahyudi and I am a Fullstack Website Developer with a passion for creating innovative and user-friendly websites. I began my career in web development while studying software engineering at vocational high school, where I learned the basics of coding using HTML, CSS, JavaScript, and PHP. For my final project, I created an online student admission application using Laravel, which allowed me to apply my knowledge of web development and design in a practical setting.

After completing vocational high school, I continued my studies at Arkademy, where I learned about more advanced technologies such as Node, React, Next, and React Native. I have been working as a web developer for two years, and have gained valuable experience in all stages of web development, including user interface design, testing, and debugging. I am confident in my ability to create high-quality websites that meet the needs of my clients and users.
