Haris Wahyudi, Full Stack Web Developer

Jakarta, Indonesia
+62 82288855562 — hariswh9@gmail.com

To   HR Manager,

I am writing to express my enthusiastic interest in the Full Stack Web Developer position at your esteemed company. My name is Haris Wahyudi, and I am thrilled to have the opportunity to apply my skills and passion for web development to contribute to your organization's success.

Currently pursuing my Bachelor's Degree in Computer Science at Asia Cyber University (UNSIA), I have gained valuable experience as a Website Developer, enabling me to develop a strong foundation in the field. I am committed to continuously learning and enhancing my skills, as my passion for coding drives me to stay up-to-date with industry trends and best practices.

What sets me apart is my ability to effectively balance my education with my professional development. Currently enrolled in a part-time employee class, I am able to actively pursue my studies while simultaneously focusing on my career growth. This unique combination has allowed me to develop a well-rounded understanding of the industry.

I firmly believe that my skills, experience, and dedication make me a valuable asset to your team. I am eager to contribute my expertise in full stack web development to help drive your company's objectives and deliver exceptional results.

I would welcome the opportunity to further discuss my qualifications in an online interview session. I am confident that I can make a positive impact as a Full Stack Web Developer at your company, and I look forward to demonstrating my abilities and enthusiasm for the role.

Thank you for considering my application. I am excited about the possibility of joining your team and contributing to your organization's ongoing success.

Sincerely,
Haris Wahyudi

Haris Wahyudi, Full Stack Web Developer

PROFILE

Experienced software engineer with 3 years of expertise in web development, proficient in both front-end and back-end. Skilled in creating responsive, efficient, and user-friendly web applications. Collaborative team player with strong attention to detail, consistently delivering high-quality work within project deadlines.

Passionate about staying updated with the latest web development technologies and trends. Solid understanding of software engineering principles, including project management, testing, and quality assurance. Effective communicator with technical and non-technical stakeholders. Motivated and skilled, capable of utilizing various technologies and working with diverse teams. Committed to continuous improvement and contributing to project success.

EMPLOYMENT HISTORY

Mei 2023 — Present

Fullstack Developer, PT Healstation Indonesia
Jakarta

- Successfully provided troubleshooting and remediation for web applications developed using React and Next.js, ensuring optimal performance and minimizing client downtime.
- Developed responsive and user-friendly user interfaces for mobile applications using React Native, ensuring a seamless and engaging user experience across various devices and platforms.
- Mastered backend development using Node.js and the Express framework, working with the PostgreSQL database to store and manage data for web and mobile applications.
- Demonstrated expertise in DevOps practices by setting up and managing servers using the Ubuntu operating system, and implementing AWS infrastructure for application deployment.
- Leveraged version control systems like Git to ensure seamless code collaboration, track changes, and maintain code integrity throughout the development process

April 2023 — Present

Freelance Website Developer, Projects.co.id
Online

- Conducted bug fixing using Laravel and MySQL, resolving issues to ensure smooth operation and functionality.
- Developed applications using React Native, leveraging its cross-platform capabilities to create versatile mobile applications.
- Built complex landing page applications, incorporating intricate designs and functionalities to captivate and engage users.

Feb 2022 — Mei 2023

Fullstack Web Developer, Sustainable Living Lab
Medan

- Conducted comprehensive planning and analysis to determine project scope, requirements, and deliverables, resulting in well-structured and scalable web applications that meet client specifications.
- Successfully provided troubleshooting and remediation for web applications, ensuring optimal performance and minimizing client downtime.
- Collaborated with cross-functional teams to ensure successful project delivery, including developers, Product Owners, designers, product managers, and QA engineers.
- Conducted rigorous testing and quality assurance procedures to identify and resolve any issues, ensuring that web applications are free from errors, bugs, and security vulnerabilities.
- Implemented end-to-end testing using Cypress to ensure the quality and reliability of web applications, including functional testing, UI testing, and integration testing.

Oct 2021 — Dec 2022

Fullstack Javascript Developer, Fazztrack
Banda Aceh

Participated in an intensive Fullstack Javascript developer bootcamp training program, gaining comprehensive knowledge and skills in web and mobile development. During the training, I acquired the following:

- Demonstrated Higher Order Thinking skills, enabling me to effectively solve problems and make informed decisions throughout the development process.
- Proficiency in a range of hard skills including ReactJS, NextJS, Redux, NodeJS, ExpressJS, React Native, and Unit Testing using JEST. These skills empower me to develop robust and scalable applications using modern technologies.
- Hands-on experience in deploying applications using VPS (Virtual Private Server), ensuring smooth and efficient deployment processes for optimal application performance.
- Familiarity with utilizing Redis as a cache to enhance application responsiveness and alleviate the load on the main database, resulting in improved performance and user experience.

| Jun 2021 — Aug 2021 | **Fullstack Web Developer, DMA Dropship** | Banda Aceh |

- Conducted rigorous manual testing to ensure high application quality, with a strong attention to detail and a commitment to promptly addressing issues.
- Updated features to improve application functionality, always prioritizing the needs and preferences of end-users.
- Provided ongoing support and made necessary updates to maintain web applications' performance and functionality.
- Improved UI and UX for front-end development, leveraging industry best practices approach to create visually appealing and user-friendly interfaces.
- Developed and maintained technical documentation, including user manuals and technical guides, to ensure that clients could easily understand and use the application's features.
- Deployed applications using shared hosting, ensuring smooth and efficient deployment for clients.

| Sep 2020 — Dec 2020 | **Fullstack Web Developer, Eka Danta LC** | Banda Aceh |

- Strategized and planned the development of web applications in collaboration with the Management team, ensuring that the project requirements were met within the stipulated timeline and budget.
- Monitored web application performance and conducted periodic maintenance checks, ensuring that the application was running smoothly and efficiently.
- Maintained web applications to ensure continued functionality and performance, providing ongoing support and making necessary updates.
- Implemented code optimization techniques to reduce the application's resource consumption, resulting in cost savings for the infrastructure and improved performance for end-users.
- Deployed applications using shared hosting, ensuring seamless and efficient deployment for clients.

EDUCATION

| Jun 2022 — Present | **Bachelor Degree, Asia Cyber University (UNSIA)** | Online |

- Continuously pursuing education through online classes to meet industry demands and gain valuable experience.
- Prioritizing work responsibilities by taking online classes, ensuring minimal disruption to work schedule.
- Gaining practical knowledge and skills in Cloud Computing, Data Science, AI, Object-oriented programming, and Web Development to stay up-to-date with the latest industry standards.

| Jul 2018 — Jul 2021 | **Vocational School, SMK 5 Telkom** | Banda Aceh |

- Continuously expanding knowledge and skills in HTML5, CSS frameworks (Bootstrap, Tailwind), PHP with Laravel framework, JavaScript, and Flutter.
- Keeping up-to-date with industry trends and best practices to ensure high-quality development work.

COURSES & CERTIFICATION

| Mar 2022 — Apr 2022 | **Full Stack Javascript Developer, BuildWithAngga** |

| Aug 2022 — Aug 2022 | **JavaScript Algorithms and Data Structures , FreeCodeCamp** |

| Oct 2022 — Dec 2022 | **Bootcamp JavaScript Developer MERN , BuildWithAngga** |

| Dec 2022 — Jan 2023 | **DevOps CI/CD Development, BuildWith Angga** |

PORTFOLIO
